# Levering Technology in OD

# Then and now....

13 + | 100 lbs +

Billions | 3 oz.

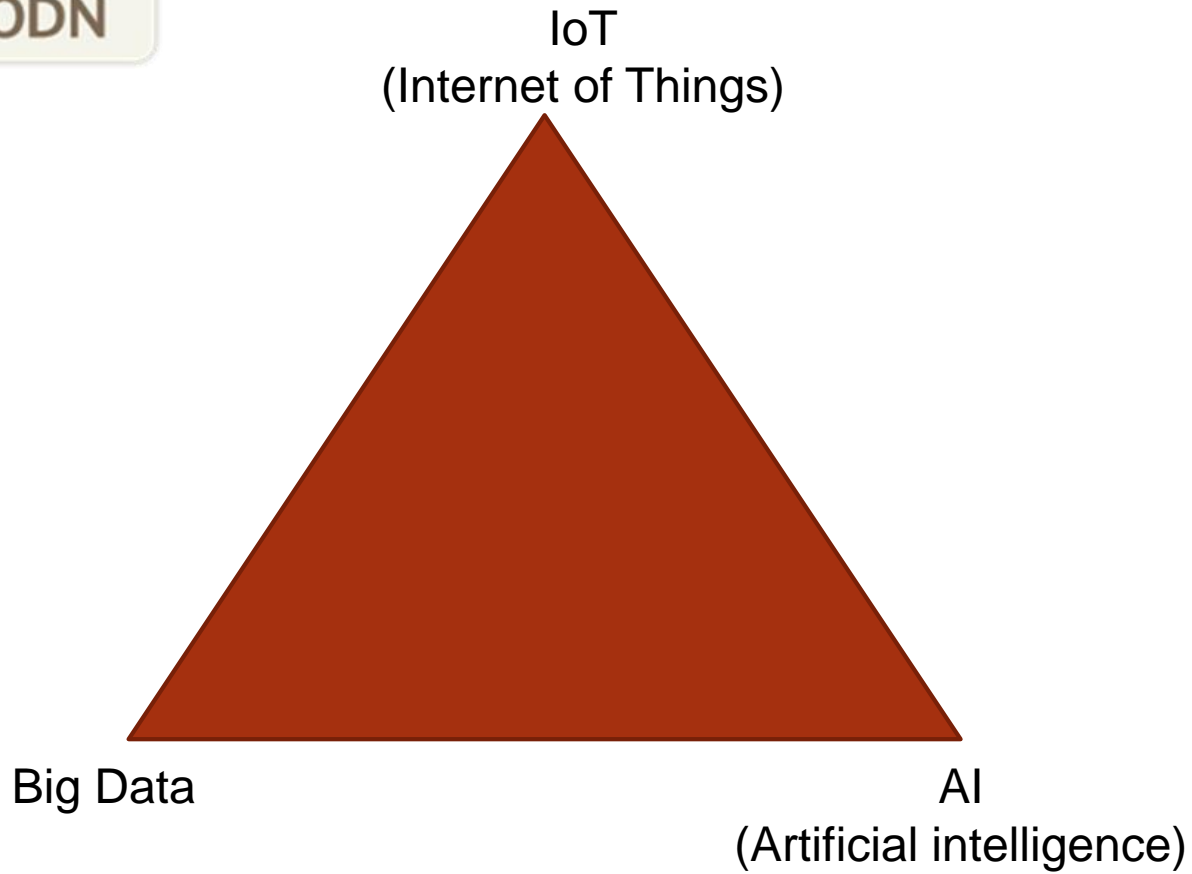

# Different paths

## 4 Global Forces (McKinsey)

1. Movement of corporations from developed countries to emerging markets
  2. Accelerated technology change - adaption and innovation
  3. Aging populations, shrinking replacement rate (smaller workforce, greater onus to be more productive)
  4. Faster global capital flows, greater volatility
- ▶ Leaders can no longer rely on intuition or past experience

## Open Space...

- ▶ Open space
- ▶ Self-Organized
- ▶ Self-Managed - The Law of Two Feet
- ▶ Closing the space
- ▶ 10 minutes each
- ▶ Chose 2 of the 3 questions or create a new question
- ▶ Share and record
- ▶ Switch
- ▶ Share insights and any next steps

## Sample questions:

- ▶ What and how are you using technology in your practice?
- ▶ What are the pros and cons of the ubiquitous nature of technology in our lives?
- ▶ How can we harness technology for organizational development?
